

Subject: Invitation for Feedback on Research, Publications, and Academic Activities of The Asiatic Society - reg.

Dear Esteemed Members,

The Asiatic Society, established in 1784, has been a premier institution dedicated to the study of Asian culture, history, and science. In order to further strengthen its academic activities and ensure their continued relevance, the Society proposes to review its current initiatives relating to research, publications, and academic programmes.

In this regard, the views and suggestions of the esteemed members of the Society are invited for improving research activities in the humanities and social sciences, strengthening the Journal of the Asiatic Society and other publication series including 'Bibliotheca Indica', and enhancing academic engagement through seminars, workshops, and endowment lectures. Members may also kindly indicate measures for improving publication output, facilitating wider digital access to archival resources, and identifying future directions for research that may effectively connect traditional Oriental Studies with contemporary academic inquiry.

Members are requested to kindly forward their suggestions by email at asiaticsociety-ask@asiaticsocietykolkata.nic.in or by post to 'The Office of the Administrator' on or before 23rd March 2026.

The cooperation and scholarly inputs of the members will be valuable in strengthening the academic contributions of the Society.

Yours sincerely,

Sd/-

Anant Sinha
